

1999 WISCONSIN QSO PARTY

OFFICIAL RESULTS

GENERAL COMMENTS

WOW! Another successful Wisconsin QSO Party. In the twenty years that our West Allis Club has sponsored WQP, I do not remember this much activity. I think I will call 1999 WQP "the year of the MOBILE STATIONS." 27 mobile stations took to the Wisconsin highways on March 14, passing through 67 counties. If no other stations had taken part in WQP 99, only the counties of Burnett, Douglas, Florence, Forest and Marinette would have been lacking a mobile station to talk with. Even better than that are the number of contacts that those 27 mobiles made. Their scores are amazing.

I try not to glorify specific stations, as WQP is a contest in which EACH STATION is important. However, I think this year I need to highlight some of the mobile accomplishments. Can you imagine doing 507 CW Qs, passing through 15 counties, while mobile, in just 7 hours. W9MSE did just that, while bettering his 98 score by 64% to a total 73410 points. Right on his tail was K9DAF, whose 390 CW Qs and 13 counties bettered his 98 score by 52% to a total 53300 points. And right behind both of them was W9YQ with 296 CW Qs and 15 counties. The top three entries in Single Operator Mobile were CW ONLY entries. The best Single Operator Mobile increase in score was by KF0UK, who did 366% better. All this for WQP.

Multi operator mobiles followed the single operator leads I guess. KJ9O crossed through 17 counties, with 445 QS (380 CW) to score 72025 points. NE9U bumped his 98 score up by 75% while hitting 16 counties. KS9WI was in 16 counties, N9VIB in 15 and K9LU in 10. Best increase in this category was K9LU, with a 133% increase over 98. The N9EZ team, from the multi multi category, repeated their 98 efforts with 24 counties and 703 Qs. And let us not forget our Technician mobile stations, such as N9SGG, who hit 13 counties with 202 Qs. ALL THE MOBILE ENTRIES should be proud of their efforts in 99 WQP - I am.

Comment after comment from the entrants for 99 WQP mentioned the mobile activity. Best way to sum it up is to quote the soapbox comment made by K9DAF - 345 miles, 1.04 miles per contact, motor run time 6.5 hours and a 53 mph average. All for WQP. Amazing. I take my hat off to each and every mobile operator. You sure did WQP proud. Mucho thanks.

The "multi fixed" categories did well too. The winner in the Multi Operator Fixed category, W9SF, did a real nice job with 78300 points, which represents a 45% increase in total category score over 1998. In the Multi Operator Multi Transmitter Fixed category, the winner W0AIH, did 204228 points, with 957 phone Qs and 345 CW Qs, which is a 123% increase over the 98 winning score. Our 98 winner, K9OT, bettered his 98 score by a whopping 65%. ND9Z bettered his 98 score by 69% and N9CK bettered his 98 score by 55%. Again all for WQP.

All of this activity with the overall level of entries decreasing. 1998 was our biggest year so far, with 248 total entries. 1999 only had 222 entries, with 146 Wisconsin entries and 76 from outside of Wisconsin. In 1998 we had 173 from within Wisconsin and 75 from outside the state. Canada was represented again by the Provinces of Ontario, Quebec and Saskatchewan. Argentina was again represented by LU6EF. Of course there were many other states and countries in the logs of those who entered 99 WQP - they just

1999 WISCONSIN QSO PARTY

OFFICIAL RESULTS

stopped by to either give out contacts or to try and work one of the many counties that were on during 99 WQP. I cannot determine how many Wisconsin counties were on, because of missing data, but I can tell you this - superstation W0AIH worked 68 of Wisconsin's counties.

As to records, W9MSE almost doubled his 98 score in the Single Operator Category. In the Multi Operator Mobile category, KJ9O takes the new record with his 72025 points, over the 98 record of 44774, held by AA9PB. N9EZ again bettered the Multi Operator Multi Transmitter category record with 109108 points. And the Single Operator Technician category has its record broken too. N9SGG scored 10944 to better the 98 record of 10715 held by KB9AMM. We do intend to place the standing records on our website, as soon as we can get them all together.

We did have a lot of activity on the web site. A lot of entries used the WA1UJU logging program, as well as the entry forms. The negative side of this is " what was missing." Part of a COMPLETE entry is the "part" that most entries did not include - the "other part of the story" - the DATA. The COUNTIES-STATES-PROVINCES are needed. I have to go thru each log that does not include that information to make sure that what is claimed is what was worked. The WA1UJU logs do include that information. Downloading an entry form lacks the data unless you also include the rules sheet with the counties-states-provinces crossed off as worked.

One problem this year was assuming. Just because you put down a callsign and name does not mean I could read it. I spent a lot of time on the callbook site determining proper names and/or callsigns, so I could list them in the results. If you find errors, that is probably the reason - I could not read enough to be able to find what I needed. I also found a problem with clocktimes. I suggest you all use WWV at the start of the contest. Some log times were at least 10 minutes off of times shown in other cross-check logs. Miscopied callsigns, another problem. It seems as more and more Qs are being made, I am seeing more and more of this. A correct entry includes the correct call.

And lastly, I need to mention about club entries. In addition to the rule where all entries for a specific club need to be within 50 miles of the club except for mobile stations, I also need to know the CORRECT NAME OF THE CLUB, not some abbreviation or just a callsign. I do not know all the groups and it was quite bad this year. I hope I got all the entries into their correct clubs. One nice thing is that some of you included your email address on your entries. I would encourage that.

In the CLUB COMPETITION, or should I say, the battle of the Wisconsin clubs, we had a change. Last years winner moved to 3rd position. Last years third place club came in second and last years second place club WON. Four Lakes Amateur Radio Club, scored 499189 points with 25 club entries. While this is not a record, it is a 5% improvement in the winning score of last year AND a 13% improvement in their 98 score. The standing record is 540,970 points, made by Greater Rice Lake Contest Club, in 1986. I believe this is the second time that FLARC won WQP Club Competition. Congratulations 25 FLARC'ers.

The OUT-OF-STATE winner of last year also lost, after winning for the last several years. Our 1999 plaque goes to WA3HAE, Keith Pederson, of Pennsylvania. He made 122 CW contacts and 99 phone

1999 WISCONSIN QSO PARTY

OFFICIAL RESULTS

contacts with 55 Wisconsin counties, for a score of 18865, which is not a new record. The record remains at 23085, held by K9OM of Illinois. Congratulations Keith.

The plaque for the best SINGLE OPERATOR - FIXED goes to last years winner, Chad Kurszewski, WE9V. He made 219 CW Qs and 524 phone Qs with 111 multipliers, for a score of 107282, which is just below his last years score. He does hold the record for this category with 108677 points, which was his 98 WQP score. Congratulations Chad.

Before finishing, I want to mention something. As we all know, the FCC is doing a restructuring of amateur radio licensing. We suspect it will happen before the next WQP. Pending what happens, we suspect there will need to be changes in the WQP categories, at least. If you have some comments you want to make, please send them to me, either via mail to my home address (5436 Scenery Road, Waterford, WI 53185) or to my email address (k9kr@powercom.net).

There is not much more I can say except - WITHOUT ALL YOU GUYS AND GALS, THERE WOULD BE NO WISCONSIN QSO PARTY. Numerous stations stopping by to give out points, chasing counties, just seeing what is going on with all the activity; 27 mobile stations covering 67 counties; all resulting in a lot of participation. I am thankful for this participation. Without this participation, a lot of stations would not be getting their QSO totals. It is these efforts that keep WQP rolling along like it is - we think the best "state QSO Party" in the USA. See you on the second full Sunday of March, 2000, good Lord willing.

Lynn Tamblyn, K9KR
for the Wisconsin QSO Party Committee

1999 WISCONSIN QSO PARTY

OFFICIAL RESULTS

SOAPBOX

Had a great time ! The 7 hour format is really slick. Doesn't tie up the whole weekend like the larger contests (wife friendly !). Will be back next year for sure - N2CU

TU ! Only a few QSOs but it was fun. Good activity for a state QSO party - W2GE

I finally toured Wisconsin at 74 years for a WW II reunion at Appleton. Now I know where all those counties are - W2NZH

Enjoyed the QSO party once again. My score was lower than last year as I got started 3 hours late. Still had fun. Even had 1 QSO on 10 meters. Thanks to all the mobiles for getting out the counties. Keep the short format, its a winner. 15M went untouched from the east coast. Keep up the good participation. See you all next year -W2UDT

A great QSO party. Operated QRP (4 watts) and beat previous scores - N3CZB

Enjoyed the short format again. 15M was quiet; worked WI9WI early and heard WA1UJU late in contest and forgot he was in WI until I was checking log. Mobiles were great again - W3DYA

Hats off to the mobiles ! What an outstanding job ! Activity seemed to be up this year with more casual ops getting involved. This is a personal best score in this one. Hope to hear all of you in PAQP - WA3HAE

The contest had more activity this year, making for a very enjoyable contest to operate. Glad to see all the mobile activity and my congratulations to all the mobiles for a job well done. The Y2K should be a super contest - VA3RJ

I was just going to hand out a few contacts in the WI contest. I figured WI would be too far inside my 20 skip zone and my 5 watts would be too weak. Turned out 20M was so good I hung in the party for 6 hours. Hats off to you guys. Plenty of CW ops, including mobiles, to keep the signals hopping for the whole 7 hour period. Lot of fun. First time in the WIQP - NA3V

The WIQP remains one of the best state QSO parties in my opinion. Great activity on CW, unlike some other state QSO parties. I set out to get 100 QSOs this year after coming close the past few years. I zoomed past that goal easily - K3WWP/QRP

Managed to beat my 1998 score and picked up 7 new counties for the US County Award. Look forward to your 2000 WQP - VE3WZ

I used the WA1UJU logging program and it was great. That program is a great concept and I would like to see one for the Florida QSO party - WA4IMC

1999 WISCONSIN QSO PARTY

OFFICIAL RESULTS

Enjoyed the QSO party. I hope to get my computer going by next year, hi - K4ORD

My apologies to those I couldn't hear - it was snowing down here and the QRN was pretty bad. Hope to hear all of you in the Tennessee QSO party in September - K4TCG (W9WI op)

Fifth time I've entered. Higher score this year. Conditions were good with strong signals down our way. The mobiles again this year did a super job and I picked up some new counties. Was surprised to work W9WUU on 15. No signals on 10 though - K4UK

Many thanks. Enjoyable Sunday evening. I do hope to be back again in 2000 - LU6EF

Hats off to all the mobiles - there seemed to be many more than years past - AF8A

Never let it be said that WI amateurs don't like their CW. 72 of my 99 contacts were via that mode. Special thanks to the mobile stations who activated many counties for us. They were out in full force and did a tremendous job. Very much appreciated the extra activity it creates keeping people busy. Great ops too - K8KFJ

What a blast ! Amazing what you can do barefoot with all wire antennas. See you next year - ND9C

This year was very good and a lot of fun. Only a few stations failed to give the mobiles enough room to operate. Conditions were good and much was learned for next year. 345 total miles driven. 1.04 miles per contact. Motor run time = 6.5 hours. 53 mph average - K9DAF

I had a great time in the contest. Sure is nice to see so much participation, not only from in state but from out of state too - N9EAJ

WOW ! What a contest ! This was our best effort yet thanks to all the folks that contacted us as we drove through 24 counties. We almost had WAS with 43 states. Our total of 109K was impressive, but we see many ways to improve upon it. Thanks again for your help - N9EZ

It sure is surprising to see all the Wisconsin stations checking into the party but not checking into the WI traffic nets - K9FHI

Great contest and favorable band conditions. Only spent one hour, but had loads of fun - K9GDF

Operated QRP, with indoor antenna, from my apartment - AF9J

I guess I had a bad connection to my loop because I had a very weak signal on 80 meters. But sure was fun anyway. Next year I will transmit from Green Lake County - KB9KEG

I had to leave WQP early for another party or I would have done better - WY9L

1999 WISCONSIN QSO PARTY

OFFICIAL RESULTS

This was a great contest, and the seven hours (starting after church, thank you) was a perfect length of time. What a hoot ! C U next year - N9NE

Hi guys. Thanks for organizing and publicizing the WQP. It was great to hear all the activity - KJ9O

Great contest. Lots of fun - K9OM

Thanks to all my team members. We had lot of station interference with each other so we need to figure out some filters. As usual great mobile activity. Thanks to all those guys and gals for the multipliers and QSOs. All 5 HF stations and 2M were in a room about 16 x 16 - K9OT

More Qs but less mults this year. Murphy came along for the ride, and we got off to a slow start. We have more fun on this contest than any other all year long. We tried a new antenna this year and it seemed to improve our signal quite a bit. I call it the KG9BI special. 73 till next year - AA9PB

Its always a great time. This year I used the logging program by WA1UJU. I look forward to next year just to be able to use that again - AA9TQ

Nice contest. Only 2.5 hours this year. Hope for 7 hours next year - WA9TZE

Many thanks to all those who participated, especially the mobiles -WE9V

Started a little late. Quit 1.5 hours early to due to other commitments. 80 and 75 had S9 noise level but still the most fun contest there is in my opinion - W9WAQ

Outstanding weather. Excellent participation, particularly by casual operators. Need to get a better antenna for 80 (only 6 Qs on 80 before the sun went down). Excellent activity on 20 & 40, not so good on 15/10. Few stations heard. Lots of fun. Keep 'em coming - WI9WI

Great time as always. Good to see 10 meters open. Big thanks to all the mobiles and out of state contacts. Neat to work LU6EF on 4 band/modes. Didn't know the WIQP had such international interest -W9XT

I don't understand the 5x9 reports when the "repeat" requests told me I was no better than 3x3. Some antennas receive but don't seem to radiate worth a hoot - K9YLI

Thank you again for sponsoring a great contest. We operated 3 transmitters and are very happy with our score. We operated from Brown County as a multi multi, with reports received of being heard on an HT in Beloit on 2 meters with an S9 report. I guess we were a bit loud - ND9Z

Good contest. Lots of activity on 40 at start. Hope to see all you guys in Minnesota QSO party next year - K0AD

1999 WISCONSIN QSO PARTY
OFFICIAL RESULTS

Thoroughly enjoyed being back in WIQP. Last time was in 1995 as WV8B (winner in Ohio) - W0EBA

Great contest. Highlight was 9 N9EZ QSOs - N0IJ

Thanks for another great contest. Always look forward to your even. Wish I could spend the whole time operating but had to break right in between. See you next year - N0JVR

Really had fun in the contest. My score was much improved over 1998. This year I activated 9 counties. Participation seemed really good. Operators seemed to be very polite; when there were several stations calling they let the mobiles go first. A downside to mobiling is missing many of the "mobile only" counties. Thanks again for sponsoring a great contest. Looking forward to 2000 - KF0UK

Thanks again for very nice contest - NO0Z

-.-

Thanks to all. See you again in 2000!
